HABITAT PROGRAM

## Small but powerful pollinator seeks beautiful flower...

### Bumblebee & Lupin: A Match Made in the Garden

When you consider the needs of wildlife you're helping to play nature's matchmaker in your own garden.

The Canadian Wildlife Federation's Backyard Habitat Certification program recognizes Canadians who are doing their part to provide a place for wildlife. Visit [www.wildaboutgardening.org](http://www.wildaboutgardening.org) to learn more and apply to certify your garden.
