Quebec Curriculum Adaptation

Kathy Plamondon

Revision

Nathalie Piedboeuf

January 2011

This adaptation of the Project WILD Activity Guide is based on the Quebec curriculum of the Ministère de l'Éducation, du Loisir et du Sport (MELS) of the Government of Quebec. The Quebec curriculum adaptation section is divided into two parts. The first part includes activity charts for preschool students, and the second, charts for elementary and secondary students. The intended level for which the activities were designed appears after the name of the activity. The charts are organized according to the seven different sections of the Project WILD Activity Guide.

The charts for the Quebec curriculum were developed to facilitate activity selection and assessment by teachers. In the preschool education part, the chart is divided into three sections: competencies; broad areas of learning and cross curricular competencies. At the secondary level, the chart is once again divided into three sections, covering the five broad areas of learning (French, mathematics, science and technology, society and arts and music), subject areas and cross curricular competencies. The charts have also been adjusted to reflect the new format of the provincial report card of the Ministère de l'Éducation, du Loisir et du Sport (MELS) to be introduced to all of the province's elementary and secondary schools starting in the 2011-2012 school year.

The legend included in the charts specifies whether competencies and broad areas of learning are "targeted" or "affected" by the activities in the Guide. When they constitute the main objective of an activity, these competencies or broad areas of learning are considered "targeted" and a black dot appears in the chart. When the competencies or broad areas of learning are simply touched upon in passing, optional to performing the activity or could be explored in greater detail by the teacher, they are "affected," and identified by a white dot. When nothing is entered, the competency or broad area of learning is not used in the activity.

PRESCHOOL

SECTION ONE – AWARENESS AND APPRECIATION

Legend

- Targeted
- Affected

	What's Wild?	Colour Crazy	Wildlife is Everywhere	Everybody Needs a Home!	Aqua Words	Water Plant Art	Are You Me?
--	--------------	--------------	------------------------	-------------------------	------------	-----------------	-------------

COMPETENCIES

To perform sensorimotor actions effectively in different contexts	○	●		●	○	○	
To affirm his/her personality		○		○	●		
To interact harmoniously with others	●		●				●
To communicate using the resources of language		○	●	●	○		
To construct his/her understanding of the world	●	○	●	●	●	●	●
To complete an activity or project			○				

BROAD AREAS OF LEARNING

Health and wellbeing							
Personal and career planning						○	
Environmental awareness and consumer rights and responsibilities	●	●	●	●	●	●	●
