

number and range of species collected. Your propagation protocol is the most thorough of the whole class, well done! Your background research on choke cherry was very well done, and you made good use of multiple sources for information. Your presentation on choke cherry was very informative and well done. Good luck in your future endeavours, and we hope to see you at Tipi Mountain next year ☺

Sincerely,

Alison Kennedy, MSc, PAg
Plant Scientist & Senior Operations Manager

Carla Mellott, MSc
