

The 2025 results are in!

Between April 25 and April 28, 2025, Canadians recorded observations of wildlife in their cities as part of the global City Nature Challenge. See the results at: iNaturalist.ca/Projects

Global Results:

TOTAL NUMBER
OF OBSERVATIONS

3,310,131

TOTAL NUMBER
OF SPECIES

73,765+
3,338+ rare/endangered/
threatened species

TOTAL NUMBER
OF PARTICIPANTS

102,945

Canadian Results: (36 participating cities)

155,139

6,344

5,566

MOST
OBSERVATIONS

Metro Vancouver
Regional District, BC

36,209

MOST OBSERVATIONS
PER CAPITA

Victoria, BC

22,877

MOST
PARTICIPANTS

Greater
Montreal, QC

947

MOST PARTICIPANTS
PER CAPITA

Kincardine, ON

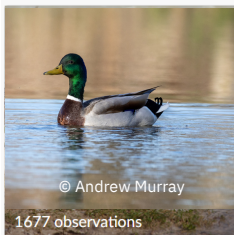

20

MOST DIFFERENT
SPECIES OBSERVED

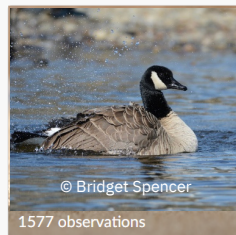

Victoria, BC

2,417

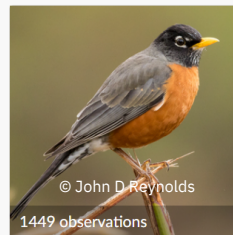

Top five species recorded

Mallard
Anas platyrhynchos

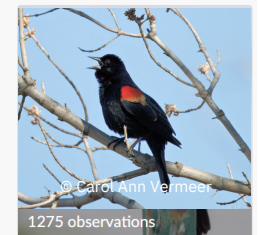

Canada Goose
Branta canadensis

American Robin
Turdus migratorius

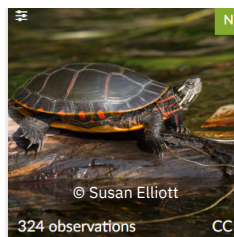

Prairie Pasqueflower
Pulsatilla nuttalliana

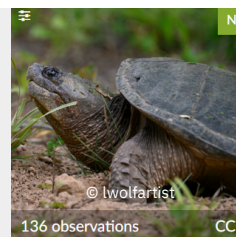

Red-winged Blackbird
Agelaius phoeniceus

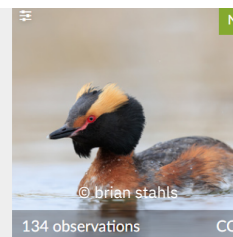

Top five species at risk recorded*

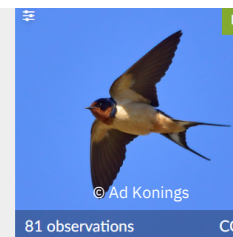

Painted Turtle
Chrysemys picta

Common Snapping Turtle
Chelydra serpentina

Horned Grebe
Podiceps auritus

Barn Swallow
Hirundo rustica

Northern Leopard Frog
Lithobates pipiens

1558 observations of species at risk were recorded across Canada encompassing **123 species**.

*Species are at risk in at least some parts of their range and may not be at risk in all of Canada. Visit cosewic.ca for more information.

Thank you to our city organizers, participants and identifiers who made this a success. The City Nature Challenge allowed people to connect to nature and contribute to scientific research at the same time. Keep uploading observations to iNaturalist.ca to provide invaluable information all year long to track biodiversity and influence conservation in Canada. None of this would be possible without the support of people like you!

CITY NATURE CHALLENGE IS ORGANIZED BY
