

Based on the Canadian Bat Box Study results, we have compiled a list of bat houses, some of which have been reviewed by members of the CWF, that meet our newest design recommendations and that we believe will be ideal for bats.

Samples of these boxes were reviewed by members of the CWF and seem to meet our newest design recommendations and should be an ideal home for bats\*

Business	Source	Box Name	# of chambers	Dimensions *	Price Range (\$ CAD)

\*Always do your research and check the specs and quality yourself when purchasing a new product - the CWF does not guarantee quality

\*There may be other boxes on the company's websites, but they either do not meet our recommendations, or cannot be shipped to Canada\*

\*Based on the recommendations of our study, the bat house measurements on our website exclude the landing platform and roof. The measurements on the companies' websites may include these and vary.

These boxes have not been reviewed, but based on their description, seem to meet our newest minimum design recommendations\*
