

The 2023 results are in!

Between April 28 and May 1, 2023, Canadians recorded observations of wildlife in their cities as part of the global City Nature Challenge. See the results at: iNaturalist.ca/projects

	TOTAL NUMBER OF OBSERVATIONS	TOTAL NUMBER OF SPECIES <small>2,570+ rare/endangered/threatened species</small>	TOTAL NUMBER OF PARTICIPANTS
 Global Results:	1,870,763	57,227+	66,394
 Canadian Results: (43 participating cities)	74,972	4,433	3,728

833 observations of species at risk were recorded across Canada encompassing **103 species**

*Species are at risk in at least some parts of their range and may not be at risk in all of Canada. Visit cosewic.ca for more information.

Thank you to our city organizers, participants and identifiers who made this a success. The City Nature Challenge allowed people to connect to nature and contribute to scientific research at the same time. Keep uploading observations to iNaturalist.ca to provide invaluable information all year long to track biodiversity and influence conservation in Canada. None of this would possible without the support of people like you!
