

Passion pour les PRAIRIES

A detailed illustration of a prairie ecosystem. In the background, a herd of bison (A) grazes on tall grass. A pronghorn (C) stands alert. A coyote (D) and a fox (E) are also present. A bird of prey (K) flies in the sky. In the foreground, a porcupine (J) stands near a small bird (H). A group of owls (G) is gathered near a small stream. A beaver (F) is visible near some purple flowers. A butterfly (M) and a bee (L) are also shown. A small mouse (B) is near the flowers. A duck (I) is in the stream, and several fish (N) are swimming. A small bird (P) is near the stream. A small bird (Q) is near the bee. A small bird (R) is near the stream. A small bird (S) is near the stream. A small bird (T) is near the stream. A small bird (U) is near the stream. A small bird (V) is near the stream. A small bird (W) is near the stream. A small bird (X) is near the stream. A small bird (Y) is near the stream. A small bird (Z) is near the stream.
